# The Problems of Current AI

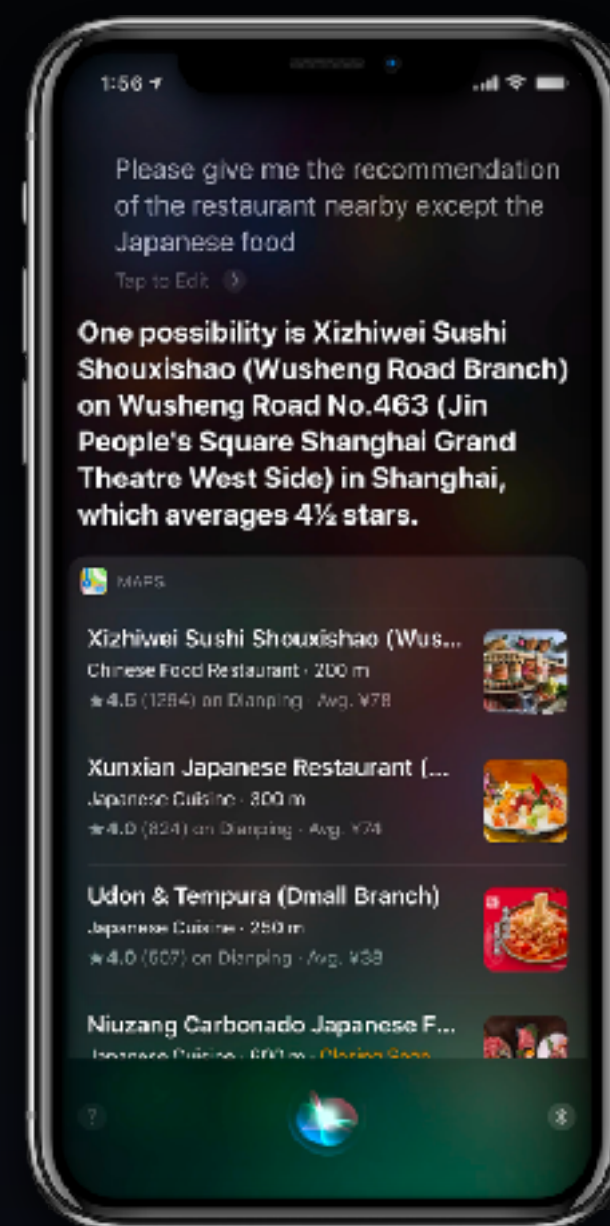

“ Hi Siri, ...restaurant recommendation...no Japanese food ”

THE WINOGRAD SCHEMA CHALLENGE

“ Hi Alexa, open..... ”

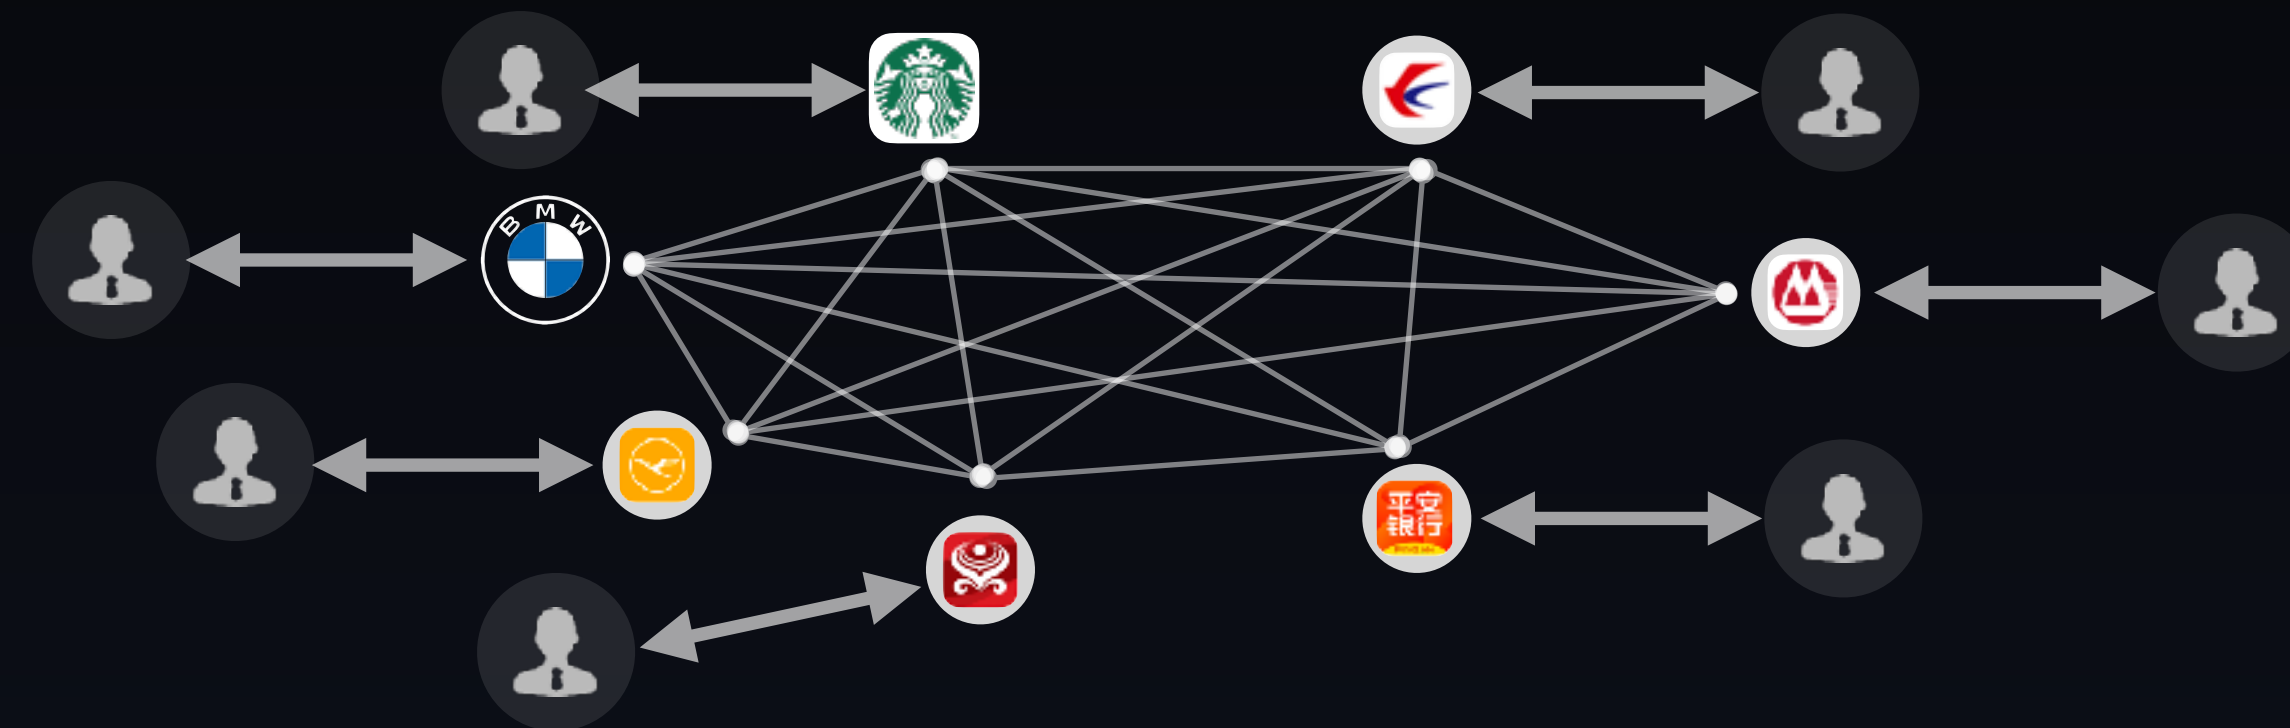

THE CROSS DOMAIN CHALLENGE

# The Solution

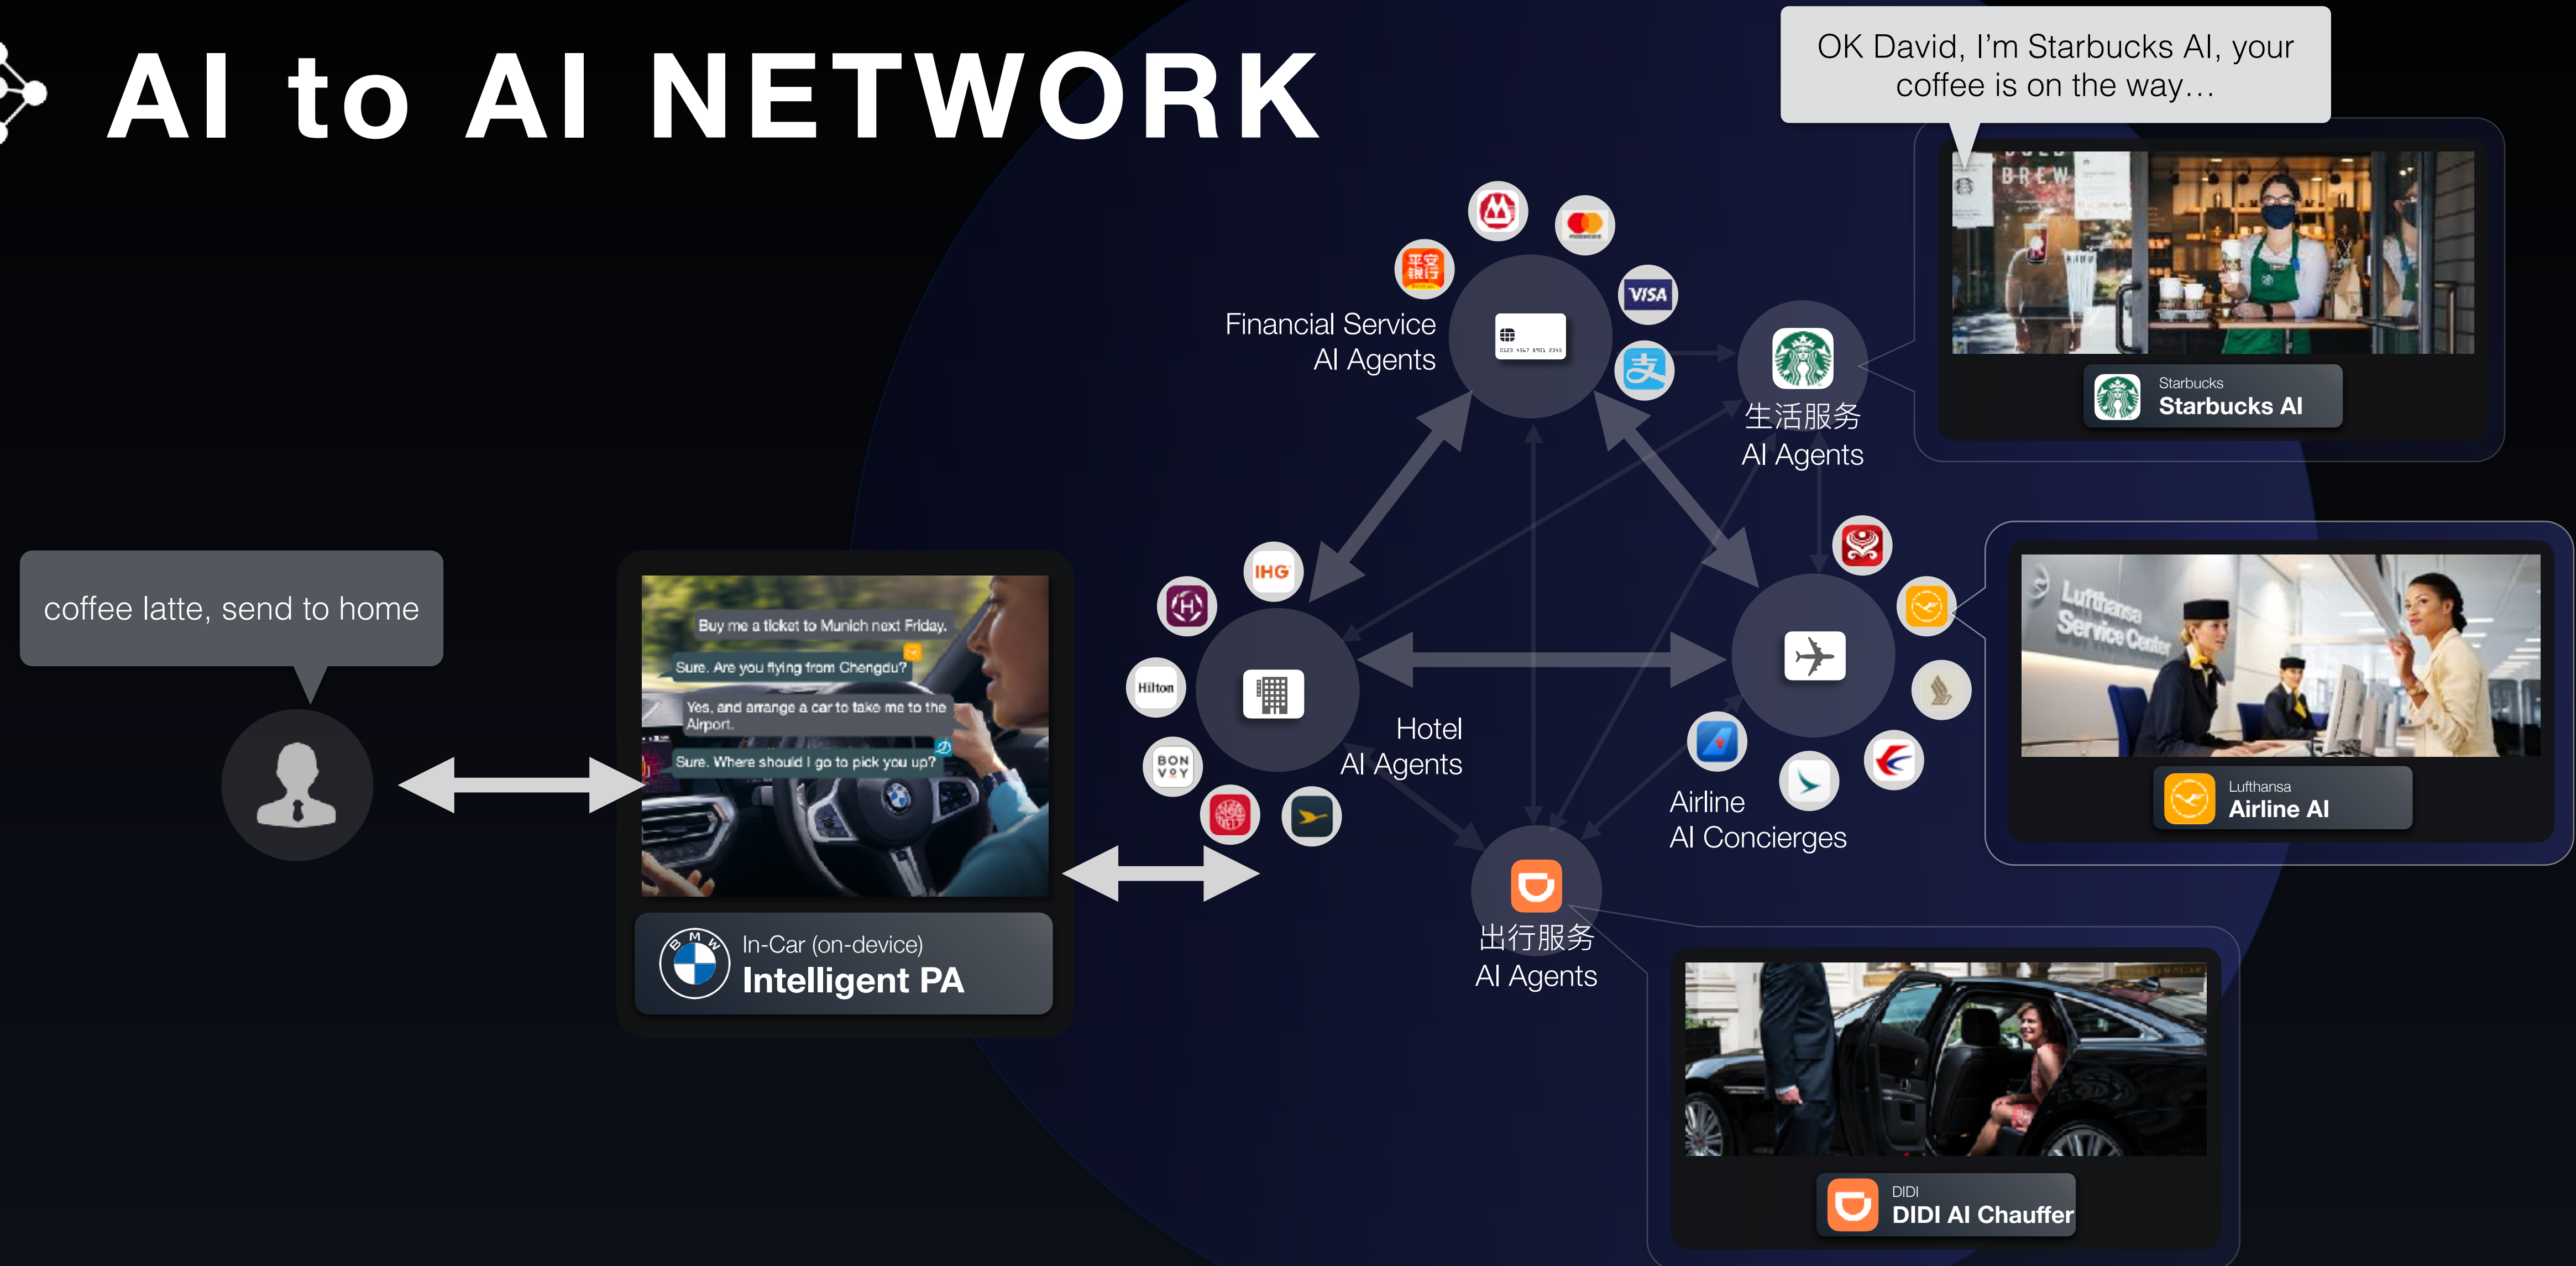

AI NETWORK

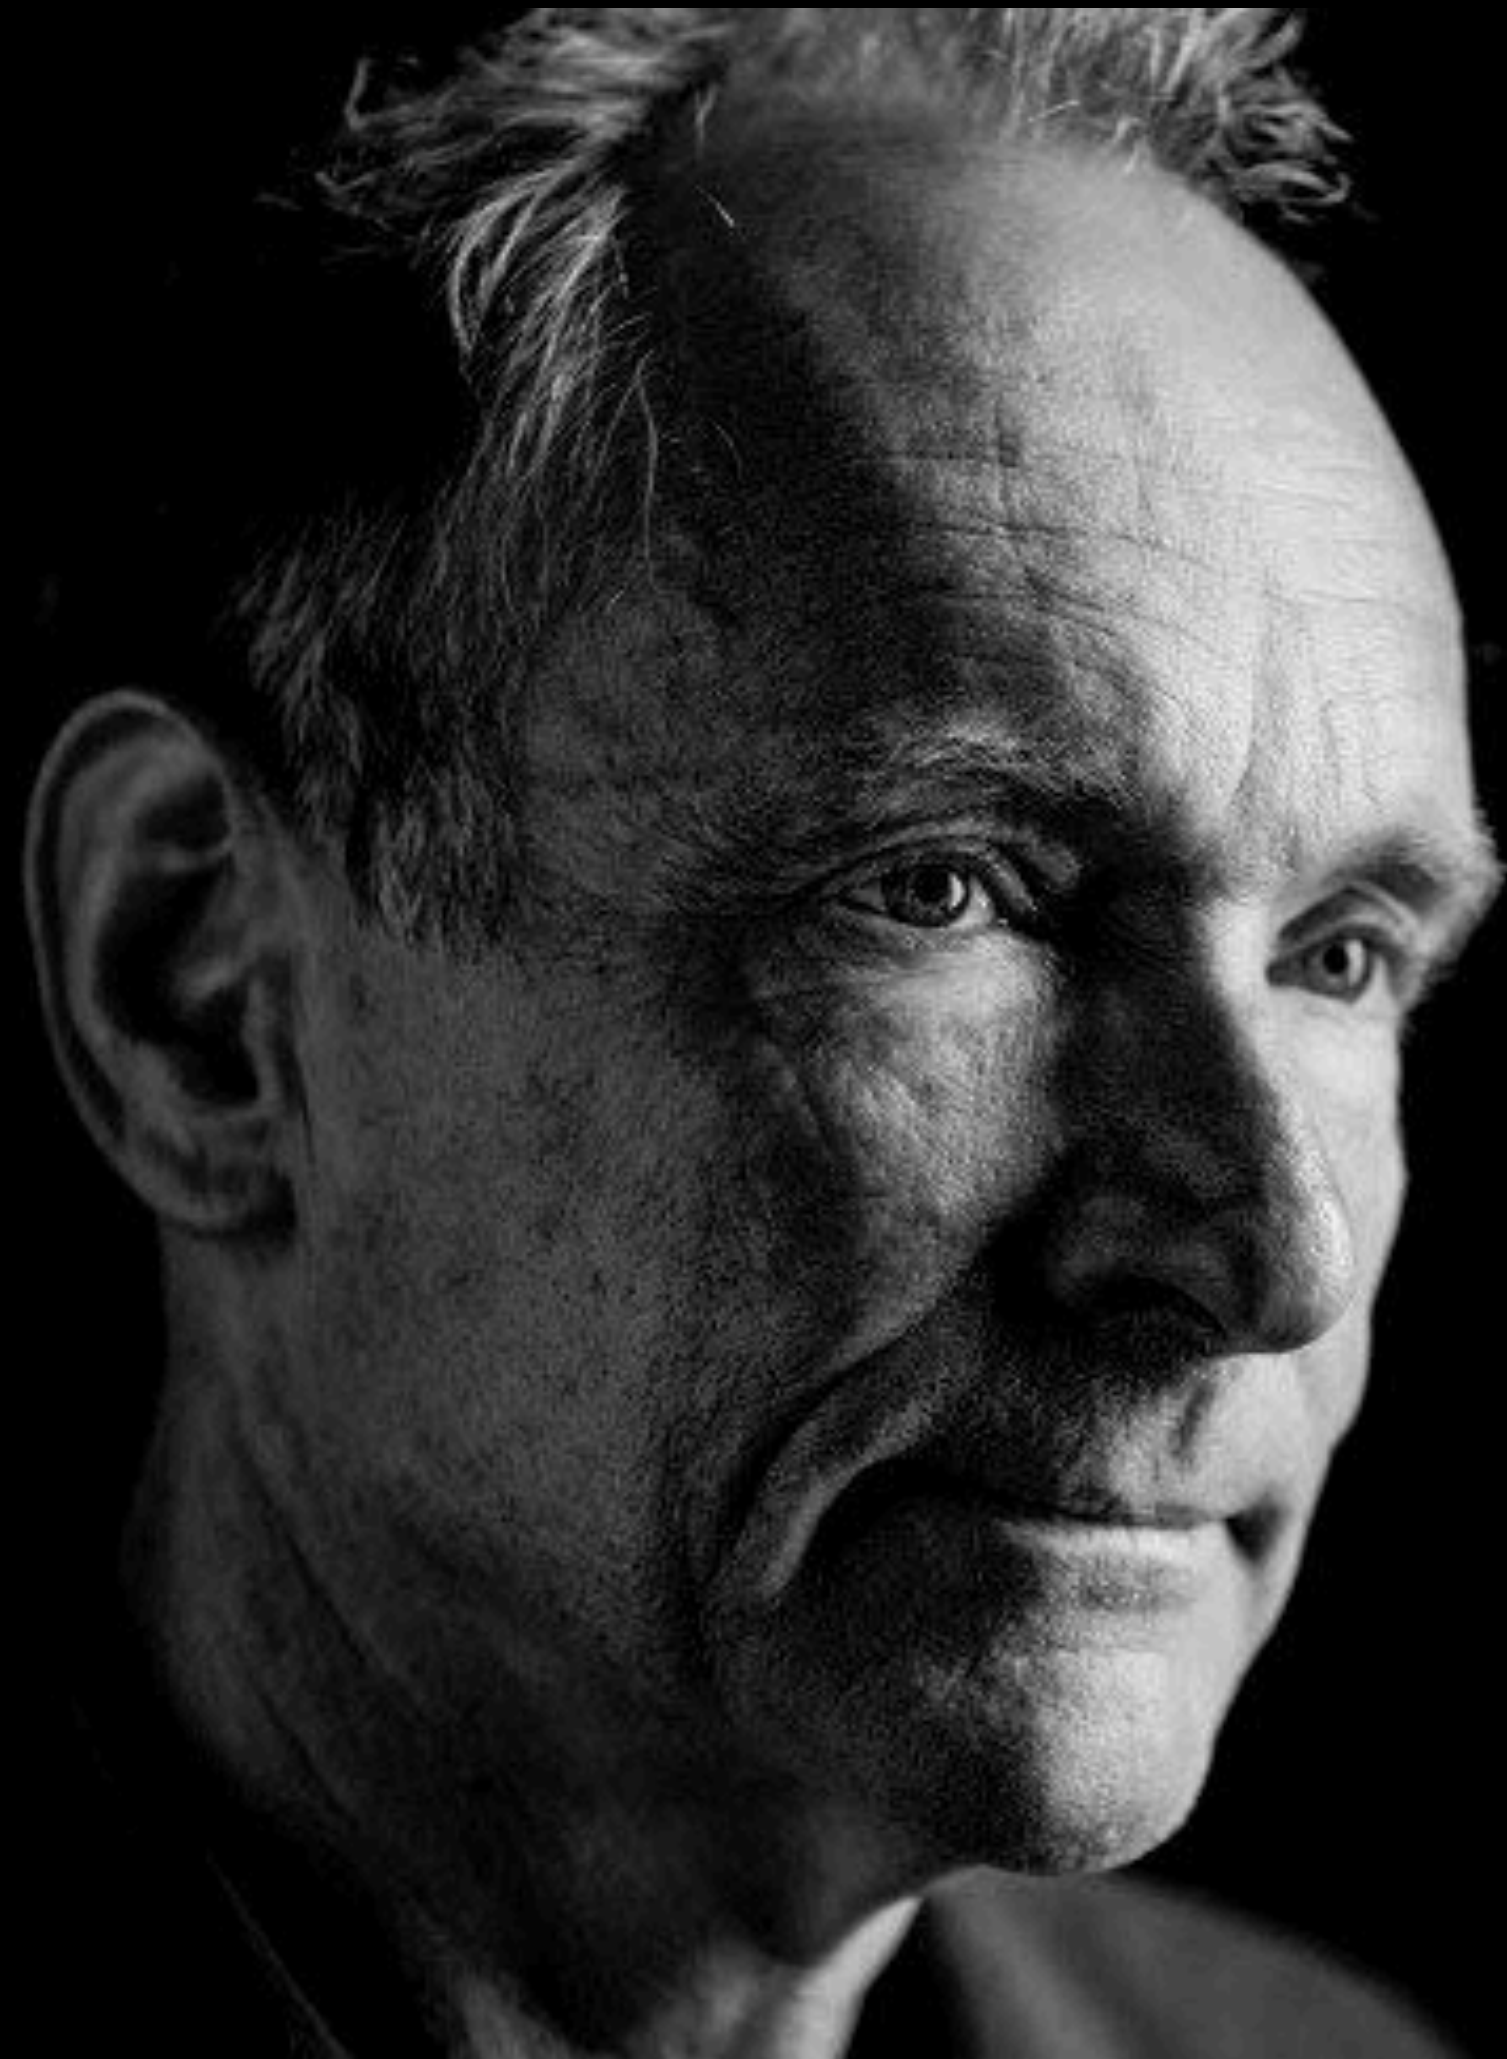

“ The Network is the AI ”

# AI to AI NETWORK

“

I have a dream for the Web become capable of analyzing all the data on the Web – the content, links, and transactions between people and computers.

A "Semantic Web", which makes this possible, has yet to emerge, but when it does, the day-to-day mechanisms of trade, bureaucracy and our daily lives will be handled by machines talking to machines.

The "intelligent agents" people have touted for ages will finally materialize.

1999

Tim Bernes-Lee  
The Inventor of Web

”
